

Hospital and Nursing home facility

Location : North Maldives

Rationale

The project is intended to reinforce the government's regional development strategy of focusing development in two regional centers. The rationale for the project is the lack of adequate medical facilities and facilities for the elderly in the Maldives.

The hospital facility is intended to cater to both the Maldivian population and service the needs of the expanding tourism industry in the region. The project, in particular, the nursing home facility has the potential to introduce “medical tourism” to the already successful tourism product of the Maldives and thereby attract a new market segment to the Maldives.

Location

Haadhaalu Hanimaadhoo

Features

To be proposed by the investor on completion of market analysis

Business model

Built-Operate-Transfer or Joint Venture

Time frame

1 to 3 years
